

MAXISYS 908SPRO

WORK SMARTER NOT HARDER

MaxiSys 908S Pro is Autel's most advanced diagnostic scan tool. With a hexa-core processor, MaxiSys 908S Pro operates a lot faster on multitask-capable Android operating system and saves technicians time significantly. A 64G memory card provides worry-free storage. MaxiSys 908S Pro is equipped with easy-to-navigate applications and MaxiFlash Elite J2534 pass-thru programming device, both with an internal Bluetooth VCI. These features empower customers with the best possible OE-level diagnostic coverage and programming functions.
